

EVENT MOSCOW Vithoulkas, November 2019

In Moscow we look forward to participating in yearly Autumn seminar all year long.

This is a meeting with our beloved teacher, Professor George Vithoulkas and Dr Atul and Latika Jaggi, that is organized by the Coordinator of the E-Learning program in Russia, Dr Nadezhda Kubasheva and her team.

Every time the event is very busy and teaching.

Professor George Vithoulkas answered the difficult questions in theory and practice that rised among the Russian doctors. These clarifications helped all of us all understand the process of chronic patient treatment that becomes more and more complicated year by year.

Dr. Latika presented a lecture by Prof. George Vithoulkas on "Practical Tips on Taking and Managing Cases".

All the information which is given to us within the course of the E-learning program, Advanced courses in Alonisoss, during the Skype sessions astonishes us one with its depth and significance and beauty of classical homeopathy theory. The information allows us to realize the possibilities of homeopathy in the cure of a human being and one's overall profound shift to harmony. Following all the theoretical and practical aspects of the knowledge of George Vithoulkas results in amazing effects in practice relieving people from pain and bringing them into harmonious state.

Dr. Atul Jaggi presented a practical evidence of the effectiveness of the George Vithoulkas knowledge. A case of treatment of a severe disabling disease which was in a 7-year-old female patient was treated with individualized homeopathy. It is noticeable that this case had already been under the treatment of another homeopath with the same homeopathic remedies for 3,5 years. But without the clear knowledge of theory that is taught by George Vithoulkas, the latter appeared to be not effective.

The cure of the girl was complete after the provided correct treatment by Dr. Atul Jaggi. It helped not only to get her rid of the severe disease but also to harmonize her emotional sphere.

It was a seminar that went in one breath. The blessing and support of the Professor allow us to love our profession and to help people.
