The book "Basic Principles of Homeopathy" by Prof. George Vithoulkas, who was awarded with Right Livelihood Award, 1996 (Alternative Nobel Prize), is published for the first time in Bulgarian. In it you will find the answers to important questions related to the homeopathic method of treatment, as well as the basic principles of homeopathy, interesting clinical cases of healing that confirm the effectiveness of homeopathy, even in seemingly hopeless cases. Prof. Vithoulkas emphasizes the questions - What is health, what are the causes of the disease, why are the diseases different, by what mechanisms does homeopathy work?
